Dimitrios Zacharatos

Psychometrician · Quantitative Researcher

Psychometrician and quantitative researcher with an MSc in Research Methods in Psychology. Expertise in applied statistical modeling, psychometric assessment development, and reproducible research workflows. Experienced in building production-grade assessment reporting systems and open-source statistical tools in R.

Experience

2023–present — **Evalion** • Data Analyst *(Part Time 2023–2025, Full Time since 2025)*
Architected an automated scoring and reporting system from the ground up. Took on an expert role in designing and implementing statistical methodologies.

2015–2025 — **Psycholate** • Data Analyst *(Full Time 2015–2023, Part Time 2023–2025)*
Delivered high-impact data analysis and reporting to stakeholders. Provided personalized statistical support to clients, ensuring reliability, validity, and generalizability of results. Led the creation of a Computer Adaptive Response system, acting as the key methodological consultant throughout.

2010–2012 — **Quantos** • Data input officer *(Full Time)*
Ensured accuracy and consistency in portfolio valuation through data entry and verification

2008–2009 — **Greek Army** • Psychologist (rank private) *(Full Time)*
Provided psychological services within the Greek Army, supporting personnel across multiple units. Appointed psychologist for the Special Forces training division, serving in a critical, high-stakes role during final deployment months

2005–2008 — **UH / PM College / NH College** • Research Assistant *(Part Time)*
During this time I had several part time contracts with several institutions as part time and substitute staff. Duties and responsibilities included research assistance, marking, creating lecture notes, lab assistance etc.

Projects

rwf	R package: statistical reporting and visualization for common methods
golemworldbank	Shiny app: World Bank indicators explorer
golemirt	Shiny app: interactive Item Response Theory models and estimation
golemcrypto	Shiny app: cryptocurrency time series and market data explorer
Data stories	Quarto articles: Greece since 2000, the euro crisis, world fertility

Skills

Statistical Modeling

General Linear Models (GLM) · Generalized Linear Models (GLIM) · Structural Equation Modelling (SEM) · Exploratory Factor Analysis (EFA) · Item Response Theory (IRT) · Thurstonian Item Response Theory (TIRT) · eXtreme Gradient Boosting (XGBOOST) · Natural Language Processing (NLP) · Deep Neural Networks (NN) · Linear Discriminant Analysis (LDA) · Decision Trees (CART)

Tools

R · ggplot2 · plotly · Shiny · golem · pkgdown · Quarto · Git · Grafana

Education

2009–2010 — **ΔΟΑΤΑΠ - National University of Athens**
BSc Psychology

2004–2005 — **University of Hertfordshire**
MSc Research Methods in Psychology

2001–2004 — **University of Hertfordshire**
BSc Cognitive Science
